Additional Questions & Information

Hickory Asbestos Abatement

Q: The florescent light bases in several of the rooms may have asbestos in the heat shield. How should this be handled?

A: Contractor should consider these as containing asbestos and remove these as part of the project.

Q: The concrete floor has possible traces of mastic in small concentrations from the previous abatement. How should this be handled?

A: The contractor should spot clean any areas where mastic still exists on the floor as part of this project.
